Commissioners discussed plans to trade in older grader equipment for a newer model in the upcoming 2026 budget year. They have spoken with their dealer in hopes of finding a model suitable for the department's needs. Due to ongoing concerns about the condition of county gravel roads and a shortage of grader operators, the Commissioners also considered contracting out grading services to help catch up on maintenance.

Additionally, the Commissioners began receiving calls regarding a complete roof replacement for the courthouse. Several contractors have expressed interest, and the Commission will be opening those bids on

September 29th at 1:45 p.m.

During the noon hour, Commissioners attended the Lunch and Learn hosted by the Chamber of Commerce, and later participated in the Region M Community meeting.

The remainder of the day was spent addressing concerns related to the imposed use tax from the April 2025 election, including discussions with the Senator's office.
