Commissioners met with MoDOT representative Marvin Morris and David Colf, District Manager for the region, to discuss ongoing concerns at Dead End Lane.

During the meeting, the commissioners and MoDOT officials reviewed a problem area that has experienced recurring flooding, which has significantly eroded the roadway. A proposed discussion was reached regarding this repair project.

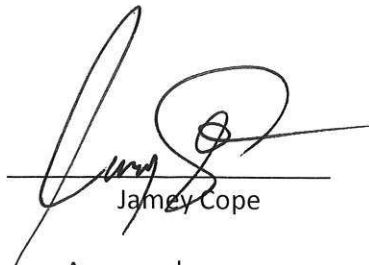

MoDOT agreed to provide material, haul trucks, and drivers necessary to support the repairs. The plan may require up to 80,000 pounds of gravel to construct a retaining wall. The County would be responsible for furnishing the labor. Commissioners also discussed the next steps, including initiating the bidding process for the labor needed to complete the project.

Also discussed was a future project MoDOT will be reviewing, MoDOT will send a historical engineer to inspect for any archaeological artifacts that may remain near Indian Creek or along the bridge replacement area on State Highway H.
