

06-16-2025 Minutes

McDonald County Commission—Minutes

June 16th, 2025

Present:

Jamey Cope - Eastern Commissioner

Rick Lett - Western Commissioner

Jessica Cole - County Clerk

Bryan Hall - Presiding Commissioner, absent

General Business

Commission signed and approved accounts payable in the amount \$38,286.14.

The Commissioners continued their ongoing discussion regarding various types of workplace threats posed by an individual, as well as the legal measures available to address each incident effectively. Commissioners also responded to numerous calls from residents regarding road conditions throughout the County. The consistent heavy rainfall has significantly impacted county roadways, and road crews are working diligently to address the issues. Some crew members are even working overtime to help meet the growing demand. However, the process is challenged by the time and distance required to travel between affected areas. The Commissioners appreciate the public's patience and assure residents that road employees are doing their best to manage resources efficiently and respond within the time constraints they face.

Later in the day, the Commissioners reviewed the Invitation to Bid for the Dead End Lane Streambank Stabilization Project. Both Commissioners Cope and Lett reached out to contractors to share details about the project and its requirements. Bid information is available on the County website, with submissions due by July 2, 2025.

Notice: County Offices will be closed on Thursday June 19th in observance of Juneteenth.

ADJOURN

Commission will reconvene on June 18th, 2025
