General Business

The Commission approved accounts payable totaling \$359,549.08 during the meeting. A FEMA recovery scoping meeting was held to discuss the ongoing efforts related to Dead End Lane. Follow-up meetings are expected in the coming weeks. Corey Collett and Johnathan participated in a phone conversation to further discuss the situation, focusing on work through the FEMA Public Assistance Program. Permit work is scheduled to be completed within an 18-month deadline. Emergency repair work on Dead End Lane, initially planned for a six-month timeframe, has been completed. With FEMA's cost share now in place, the process of restoring Dead End Lane to its pre-disaster condition is officially underway. The broader goal is not only to restore but to rebuild the area in a better or improved state.

Additionally, a conference call was scheduled with Travis Elliott to address a question regarding a Surplus Tax Property Deed reimbursement.

With no further business to discuss, the meeting was adjourned.
